Mr. Richard Takaba
Hawaii State Department of Health
Environmental Management Division
Solid and Hazardous Waste Branch
Underground Storage Tank Section
919 Ala Moana Boulevard, Room 212
Honolulu, HI 96814

Dear Mr. Takaba:

SUBJECT: RED HILL TANK COMPLEX, OCTOBER 2014 GROUNDWATER MONITORING
RESULTS FOR OUTSIDE (NON-TUNNEL) WELLS, FACILITY ID NO. 9
102271, RELEASE ID NO. 99051, 010011, 020028, AND 140010

On October 22 and 29, 2014, Environmental Science International, Inc. (ESI) collected quarterly groundwater samples from wells HDMW2253-03, OWDFMW01, and RHMW04. All three wells are located outside the Red Hill Fuel Storage Facility tunnels.

The Navy is submitting the Fourth Quarter 2014 - Quarterly Groundwater Monitoring Report for Outside Tunnel Wells as Enclosures 1 and 2.

The groundwater samples were analyzed for petroleum constituents. Laboratory analytical results indicate all contaminant of potential concern (COPC) concentrations were below the DOH Drinking Water Toxicity EALs and the DOH Groundwater Gross Contamination EALs.

Continued quarterly sampling is recommended for the three groundwater monitoring wells. The next sampling event is tentatively scheduled for January 2015.

If there are any questions regarding this matter, or if more information is needed, please contact Ms. Raelynn Kishaba at (808) 471-1171, extension 233.

Sincerely,

A handwritten signature in black ink, appearing to read "Aaron Y. Poentis", is written over the word "Sincerely,".

AARON Y. POENTIS
Director
Regional Environmental Department
By direction of the
Commander
